

Drawing primitives

HTML formatted text support

Lorem Ipsum is simply **dummy** text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummytext ever since the 1500s, when an *unknown printer took a galley* of type and scrambled it to make a type specimen book. It has survived not only five **centuries**, but also the ^{leap}_{into} electronic typesetting,

tms:

remaining essentially **unchanged**. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like **Aldus PageMaker** including versions of Lorem Ipsum.

Text flow in multiple columns

This article demonstrates how documents prepared in hypertext or word processor format can be saved in portable document format (PDF). These files are self-contained documents that have the same appearance on screen and in print, regardless of what kind of computer or printer are used, and regardless of what software package was originally used to for their creation. PDF files are

compressed documents, invariably smaller than the original files, hence allowing rapid dissemination and download.

MeSH: Internet, Publishing Portable Document Format (PDF - Adobe) was created in order to allow formatted documents to be widely distributed regardless of whether specific fonts or

postscript files are available on the user's system. 1,2 PDF files have the ability to internally embed specialised fonts, images, colours and formatting regardless of the application and platform used for the documents'™ creation. This ensures that as long as the user has the ability to read PDF files, documents will be viewed exactly as formatted by the original authors, with both appearance
